Wise precautions are important

As a condition of cover we may ask you to anchor the structure at all corners of the chassis (we waive this requirement during the first four weeks of cover to allow time to complete).

When not occupied between 1st November and 15th March, you must comply with our Winter Weather Precautions (contact us for details) to be covered for any claim resulting from burst pipes or escape of water, steam or other liquid.

Important

Your answers to our questions are important and provided you have answered them to the best of your knowledge and belief, we consider that you have fulfilled your requirements. You should tell us if any of these details are incorrect or change. We may reassess your cover, terms and premiums when we are told about changes in your circumstances. If you do not tell us about any changes, or give us incorrect information, the wrong terms may be quoted, a claim might be rejected or payment could be reduced.
